

# WALTHAM FOREST

Waltham Forest PFI includes a number of schools, both primary and secondary, that are operated by Academy Services, with Kier Project Investment a major shareholder. The project had been won and the schools built and handed over in a phase way. One of the secondary schools had been operational for eighteen months when it was decided to bolster the Academy team to help deliver the full services. For Thomas joined Kier colleagues to ensure that issues identified by the school were dealt with. By outsourcing some of the management function the Kier team could be best deployed to meet their commitments on this and the other projects in Kier's extensive schools portfolio. The experience that Track has in the operational phase of PFI projects was able to be deployed to great effect.

Track has an ongoing relationship with KPI and we were pleased to cement this relationship in helping to ensure the smooth operational delivery. The school and local authority recognised the value of having a quasi-independent input from Academy.

## Project Details

**Services Provided:**  
Management Services

**Project:**  
Waltham Forest PFI

**Completion Date:**  
2005

**Value:**  
£15m

**Location:**  
Waltham Forest, London

**Client:**  
Academy Services
